# Universal Design for Learning (UDL)

A framework to  
improve and  
optimize teaching  
and learning for all  
based on scientific  
insights into how  
students learn.

# Multi Tiered System of Support (MTSS)

MTSS stands for Multi-Tiered Systems of Support. MTSS is an instructional framework that includes universal screening of all students, multiple tiers of instruction and support services, and an integrated data collection and assessment system to inform decisions at each tier of instruction.

# Open Educational Resources ([OER](#))

Open educational resources are freely accessible, openly licensed text, media, and other digital assets that are useful for teaching, learning, and assessing.

Thank You.
